Ready, steady, bake ...

Winner of Den store Bagedyst* Annemette Voss Fridthjof, has created the cakes that make up these five beautiful motifs.

Baking and enjoying cakes is a key element in the Danish concept of “hygge”. We like to spend time in the kitchen and bake for birthdays, weddings and other special occasions. Through social media and easy access to online recipes, baking and refining cakes has become even more popular, and more and more people are throwing themselves into this activity.

Annemette Voss Fridthjof is one of those who contributes inspiration and a passion for creativity in the kitchen. Annemette was originally educated in architecture and design at the Royal Danish Academy of Fine Arts, but after she won Den store Bagedyst and Den store Julebagedyst (the latter being the Christmas edition of the show) in 2013, she chose to become an independent cake and lifestyle communicator. Today, Annemette Voss Fridthjof works as an artist, blogger, influencer and author of books on baking.
